

Product Requirement Document (PRD)

Project: VisionIAS Mentoring Platform

Version: 1.0

Date: January 2, 2026

Status: Draft / Initial Release

1. Executive Summary

Vision

"A comprehensive mentoring management system that streamlines student-mentor allocation, tracks performance, facilitates communication, and provides insights for mentors, coordinators, and students preparing for UPSC examinations."

Key Objectives

- **Automate Operations:** Streamline student-mentor assignment based on capacity and program rules.
- **Real-Time Tracking:** Enable live performance tracking and feedback loops.
- **Stakeholder Synergy:** Facilitate seamless communication between Admins, Coordinators, Mentors, and Students.
- **Data-Driven Decisions:** Provide actionable insights for coordinators to optimize resource allocation.
- **Enhanced Learning:** Improve the student experience through structured, consistent mentorship.

2. Development Pipeline (Priority Order)

The platform development is divided into three strategic phases to prioritize core functionality first.

Phase	Component	Focus Areas
Phase 1	Admin Portal	Foundation, Student Intake, Mentor Management, Batch Org, Core Data.
Phase 2	Mentor & Student Portals	Direct User Experience, Interaction, Performance Tracking, Session Mgmt.
Phase 3	Coordinator Portal	Supervision, Analytics, Reporting, Performance Monitoring.

3. User Roles & Permissions

1. Admin

- **Role:** System Owner & Operator
- **Access:** Full System Access
- **Primary Responsibilities:**
 - Student intake and queue management.
 - **Exclusive Authority:** Mentor-student assignments.
 - Batch allocation and system configuration.

2. Mentor Coordinator

- **Role:** Supervisor & Analyst
- **Access:** Read-only (Student/Mentor Data); Write (Resources/Feedback)
- **Primary Responsibilities:**
 - Monitor mentor KPIs and student progress.
 - Resource distribution and feedback analysis.
 - **Note:** Coordinators *monitor* but do **NOT** assign students.

3. Mentor

- **Role:** Service Provider
- **Access:** Personal Dashboard & Assigned Students
- **Primary Responsibilities:**
 - Conducting mentorship sessions (1-on-1 & Group).
 - Tracking student performance and providing feedback.

4. Student

- **Role:** End User
- **Access:** Personal Dashboard Only
- **Primary Responsibilities:**
 - Accessing support, tracking personal progress, and attending sessions.

4. Detailed Portal Features

A. Admin Portal (The Foundation)

- **Dashboard:** Visual Analytics (Capacity utilization), KPIs (Unallocated students, available capacity), Quick Actions.
- **Intake Queue Management:** Real-time table with days-waiting tracker, Advanced filtering, Bulk assignment.
- **Mentor Directory:** Profile views, Capacity tracking, Status indicators (Available, Near Limit, Full).

B. Mentor Portal

- **Dashboard:** KPI overview, Upcoming session calendar.
- **Session Management:** 1-on-1 session logs, history, and notes.
- **Student Roster:** Detailed performance tracking per student.

C. Student Portal

- **Dashboard Metrics:** Attendance (%), Assignments completed, Test ranks.
- **'My Mentor' Page:** Assigned State (Profile, Call/Message buttons) vs Unassigned State (Alerts).

D. Coordinator Portal

- **Supervisory Dashboard:** Alerts for pending assignments (7/10/14 days), Mentor performance alerts.
- **Analytics:** Mentor load distribution, student satisfaction trends.

5. User Workflows

Student Assignment Flow

1. **Registration:** Student registers -> Appears in Intake Queue.
2. **Selection:** Admin filters and selects student(s).
3. **Assignment:** Admin opens Unified Assignment Modal (System checks capacity).
4. **Confirmation:** Admin confirms assignment.
5. **Notification:** Student receives mentor details; Mentor receives new roster update.

Mentor Profile Management

1. Navigate to Mentor Directory.
2. Select 'Edit Profile' on specific mentor card.
3. Update Departments, Capacity limits, or Status.
4. Save Changes (Updates reflect immediately).

6. Success Metrics & KPIs

Metric Category	Indicator	Target / Goal
Platform Efficiency	Assignment Time	< 3 Days
Resource Usage	Mentor Utilization	75% - 85% Capacity
User Satisfaction	Feedback Rating	4.0+ / 5.0
Engagement	Session Attendance	85%+
Adoption	Student Portal Usage	90%+

7. Risk Mitigation & Security

Risk Mitigation

- **Scalability:** Architecture designed for 10,000+ students.
- **Data Integrity:** Strict validation rules on intake.
- **Adoption:** Zero-friction onboarding for mentors.

Security Considerations

- **Access Control:** Strict Role-Based Access Control (RBAC).
- **Data Protection:** Encryption at rest and in transit.
- **Compliance:** Regular security audits and GDPR compliance.
